*Precious care for breasts*

# Beauty Breast Cream

## Be a big hearted woman

Be a big hearted woman, one should take care of breasts in the daily life. They should practice massage of the chest, perform regular breast examinations. Common sense of breast health care is a topic that women cannot ignore.

In addition to wearing a bra correctly, massaging breasts daily can stimulate the entire breasts, including mammary duct fatty tissue, connective tissue etc.

Using Breast Soothing Cream can make breasts more plump and elastic. If you want to achieve the best results, also use with Energy Comb. It will give you a magical experience of 1+1 greater than 2.

# Beauty Breast Cream

## **An instant soothing cream designed to soften the knots in breasts**

When mammary glands are blocked and inflamed, causing redness, swelling, lumps, pain and unable to feed, rub the breasts with Beauty Breast Cream gently to relieve the pain immediately.

### **Inflammation of the breast**

1. Local lumps in the chest, redness, swelling and pain, apply Beauty Breast Cream to the entire breast and massage it a little to relieve the pain immediately.
2. After the pain is relieved, the breast milk that squeezed out must be drained first. Stop using the breast pump, try to squeeze the milk with your hands to get rid of the lump. Breastfeeding mothers can point their baby's chin in the direction of the lump to suck, this makes the inflamed milk ducts straighter enabling easier pass of the milk.

### **Breast hyperplasia nodules**

For breast tenderness, lumps, nodules, gently apply the cream to the entire breast, massage after the cream is absorbed by the breast skin.
