

Vinaera[®] **TRAVEL**
Portable Electric Wine Aerator

Easy 、 Fast 、 Effective 、 Time-Saving 、 Fun

Decanting is the key that “unlocks” the enjoyment of the full-bodied flavors of wine.
The decanting effect of a Vinaera Travel is the same as that of a traditional glass decanter.
Wines can be decanted instantly with one simple pressing of a button.

Dine out 、 Camping 、 Event 、 Party

World's **Smallest Portable** Electric Wine Aerator 150G

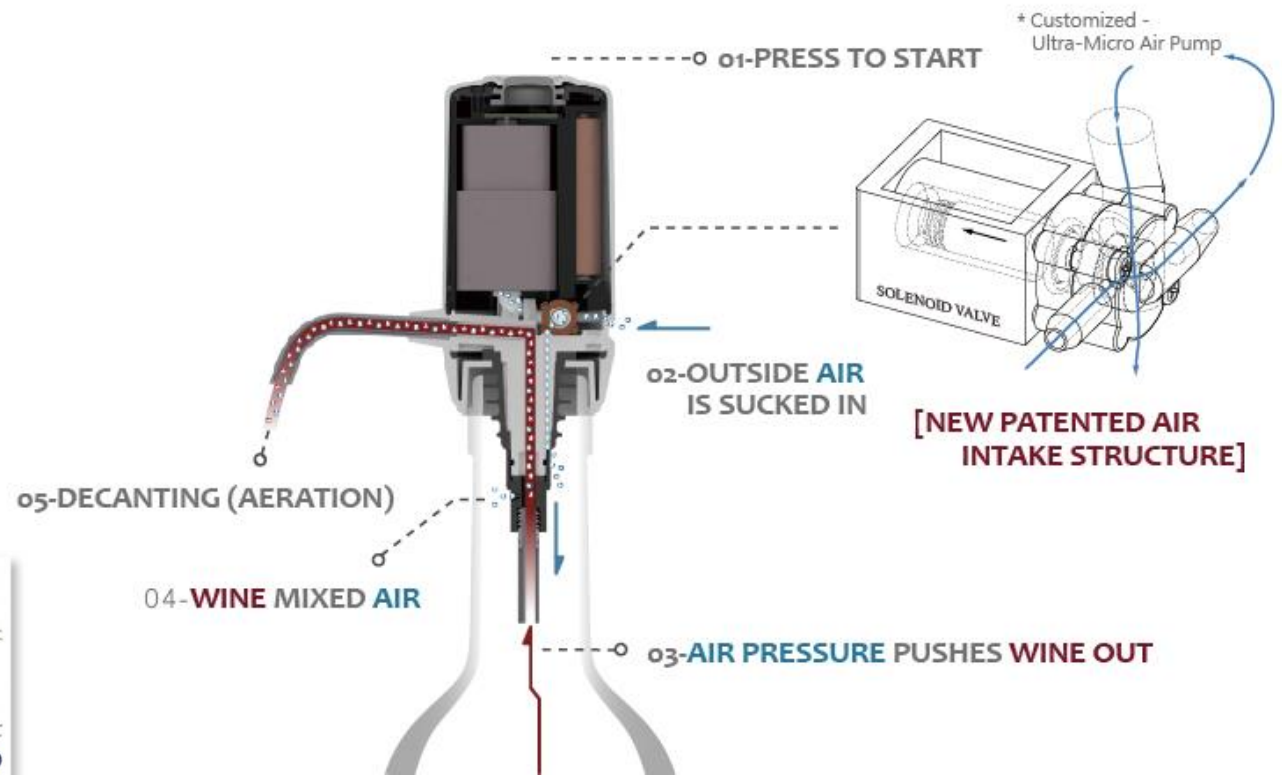

11cm

World's first Solenoid Valve Aerator

Innovative patented technology [Venturi Effect] + [Solenoid Valve] + [Powered Pneumatic Process] to wake up your wine as traditional decanter.

* Most wine bottle mouths have an inner diameter of international standard (Inner diameter at 18.5mm). Few bottle mouths have a larger inner diameter that cannot be airtight, or a smaller inner diameter that does not fit installation, do not force installation on them in such cases.

* The wine aeration time and effect mentioned in this manual was obtained through testing by professionals with UK and US sommelier qualifications. Test results may vary depending on the sommelier and equipment.
