

Ah-So Wine Opener with Foil Cutter

It combines old wine opener and foil cutter two functions. You have never seen the designs in the market. It is convenient that you don't have to purchase a foil cutter when you want to open an old wine.

Wine Pourer with Filter

Through filter design, consumer can attach filter and directly pour wine to glass when they drink the wine which has sediment. It can help consumer to resolve the bothering process (original you have to use glass decanter first and then use filter).

Multi-Function Wine Opener

It combines foil cutter, opener and stopper together. It is telescopic and convenience to storage ; We include stopper to let consumer easy to keep wine if they didn't finish in one time. This is the newest design in market.
