

min/inch

Our brand name *min/inch* is derived from “mini-inch” (the same pronunciation), which clearly indicates our design mindset and goal: making all products perfectly exquisite & sophisticated in every inch, and every detail. Like all of our creation, *min/inch* is concise, minimalist, and functional, to imbue these elements into our design for cultivating better lives!

# Spinner Drive

The one tool to take care of all your repair needs. The Spinner Drive allows you to make easy torque adjustments with the ergonomic “spinner wheel” and smooth ball bearing. It replaces the functions of your typical precision screwdrivers, standard screwdrivers, and T-handle screwdrivers. Includes a universal bit holder, allowing you to seamlessly switch between manual and power tool.

WRENCHit is a highly portable, multi-functional spanner wrench. Its unique design lets you cycle through wrench sizes and shapes on the fly and do it all from a super sleek (4mm thin) form factor. You'll appreciate it's lightweight but catch-all implement, so you can casually carry it for turning various nuts or bolts from your bike, furniture, to many sport equipment and household appliances. It's like carrying an entire tool box in your back pocket.

Xcissor Pen is exactly what it sounds like — a compact pair of scissors concealed in a robust, machined stainless steel executive pen. The tool is ideal for carrying around instead of a regular pen for moments when you need to trim small things on the go. All you have to do is remove the barrel of pen, disengage the safety lock, and extend the scissors forward. The blades are made from SUS420 stainless steel and either Nickel plated or Teflon coated for added durability.
